

MANAGEMENT POLICY

OUR MISSION-WHO WE ARE: Company dedicated to carrying out comprehensive prototyping and international injection mold projects for clients in the automotive and engineering sectors, guaranteeing high levels of quality and service with competitive deadlines and prices.

VISION-OUR FUTURE: National reference company and one of the main solutions provider at European level in the manufacture of prototypes, molds and metal parts for customers of different activity sectors thanks to our credibility, quality and service values.

VALUES:

- Responsibility and Credibility
- Dedication and Commitment
- Proactivity

Based on our Mission, Vision and Corporate Values, we commit ourselves to seek continuous improvement, guaranteeing:

- To satisfy the applicable legal and regulatory requirements, as well as our commitments voluntarily assumed.
- To meet the quality requirements of our customers to achieve their satisfaction, identifying their needs and expectations, betting on the quality and updating of our services, so that we stay always at the cutting-edge of the business.
- To understand the quality of both our products and our service as an brand image and an essential condition to achieve greater competitive advantage.
- To collaborate with suppliers and partners to build relationships based on trust and reciprocal contribution, encouraging its involvement in quality and the rest of the contractual requirements interposed.
- To promote a work environment that encourages teamwork, guaranteeing training, participation and consultation, achieving synergies that allow continuous improvement.

The aforementioned commitments are known and understood by all members and at all levels of our organization. This Policy constitutes the framework for the establishment of our strategic plan and its annual reviews.
